

Pricing schedule for Gwaredu BVD PI hunt work.

Each farm is eligible for support of up to £500 plus VAT towards identifying PI animals on each holding (CPH Number).

A. Advice / Professional time / call out fee

A flat rate of £100 plus VAT has been made available to cover the above services

B. Sampling

A fund of up to £400 plus VAT has been made available to contribute towards additional testing fees. Below is a schedule of approved rates that Gwaredu BVD will reimburse vet practices for the following services:

Per head prices

Antibody test (individual) serum - £8

Antigen test (individual) serum - £8

Antigen test (pooled) serum - £60

Bulk milk samples

PCR test - £50

Tag test

Per tag purchased - £6

Notes

- Practices to provide consumables, postage and packaging
- All costs associated with PI hunts exceeding the £500 plus VAT limit (above) are to be covered by the individual farms. This is to be explained to the farmer before the commencement of the PI hunt.
- For farms where the above rate does not cover for the professional time required to deliver the service, each practice is free to charge the farm directly for this additional cost. This is to be explained to the farmer prior to commencement of the PI hunt testing process.
